Re: Methoxyflurane Study

Date: October 24, 2018

I have reached out to Dr Michael Austin, the PI for the Methoxyflurane study, regarding the possibility of participating as a secondary site for his study. He has indicated that there would be availability to expand to secondary sites once the feasibility phase of the study is concluded. Dr Austin has requested letters of support from those paramedic services interested in participating.

Attached is the template letter of support and contact information

Thank you

Jason Prpic, MD, CCFP (EM)
