We are pleased to announce the release of the latest Companion Document for the Advanced Life Support Patient Care Standards v5.1. The Companion Document v5.1 will provide educational clarification on the changes and updates to the Medical Directives in the ALS PCS v5.0 and v5.1.

The document can be accessed via the OBHG website:

Over the next couple of years, the OBHG ESC will be looking to streamline and modernize the Companion Document to enhance its utilization by paramedics. We ask paramedics to complete a 5-minute survey by **May 31, 2023**, so your feedback can help enhance future changes.
